MESSAGE FROM CHAIR

Last year was a momentous year for the **FBH Community (FBHC)** organization. All FBHC initiatives expanded their programs to accomplish even more and help more children and families.

Food Brings Hope (FBH) was able to host KidsZone (KZ), TeenZone (TZ) and FBHonors programs in-person again. We were excited that the 2021-2022 school year brought students back to their classrooms. We discontinued Zoom-based tutoring and started hosting after-school programs.

FBH hosted 37 KZ and TZ programs at 32 schools in Volusia and Flagler counties, serving over a thousand students. FBHonors increased to 11 programs, enrolling 219 students.

We added the **Change the Code Club (CtC)** to the roster of Food Brings Hope programs. With grant funding from the Department of Education, we were able to host two pilot programs at Turie T Small Elementary (59 of 83 third-graders and 52 of 65 fourth-graders did not pass the FSA ELA) and Palm Terrace Elementary (46 of 71 third-graders and 79 of 101 fourth-graders did not pass the FSA ELA). By hosting small, after-school tutoring sessions for students who scored a 2 in FSA ELA, twice a week for two-hours, we were able to help participating students increase their scores. After the 2022-2023 school year, we will be able to do an analysis of this program, when we have hosted a full year of the CtC program.

VCan has served more clients and referrals than past years. VCan has become the go-to organization for families who suddenly face homelessness or need emergency food relief. VCan receives referrals from a multitude of local organizations since it is the only organization that responds and serves clients 24/7.

Homes Bring Hope (HBH) was able to place nine-families in their own homes. Next year, we aim to help many more families become homeowners. Finding available lots to build on or houses to purchase at a reasonable price has been the biggest challenge.

FBH Prosperity Initiative continued to work with our partners to help lower-income families with education, jobs, and healthcare, while simultaneously helping them improve their credit scores to be eligible to become HBH clients, getting them ready to become homeowners.

Through all the FBHC programs, our team works tirelessly to empower and lift our community's homeless and lower-income families. We work toward stabilizing families to do better for themselves while empowering their children, through various after-school programs, to escape from a life of generational poverty. With more education, better healthcare and ultimately owning a home, families will be able to create a less stressful life for themselves and their children. Children raised in families who don't experience constant moves, homelessness, or food insecurity are empowered to do better in school, graduate from high school and either continue on to college or get a good job.

Our success is a direct result of the generosity of so many caring companies, organizations and individuals who have always believed in us and supported our cause. We work with the most competent administrators, teachers and sponsors under the superb leaderships of Dr. Balgobin and Dr. Mittelstadt. FBHC has been able to make a significant difference in our community due to the commitment and hard work of our amazing team members who work tirelessly to address issues of hunger and homelessness.

We are proud to make our community more vibrant, healthier and happier by taking care of the basic needs of those who reach out to us.

With My Deepest Appreciation,

A handwritten signature in blue ink that reads "Forough B. Hassizadeh".

Some community issues are too massive
for any non-profit to solve and yet too
important for community leaders to ignore.

- Forough B. Hosseini, Founder & Chair

OUR MISSION

Creating a community in which
hard-working people can prosper.

OUR VISION

Foster community organizations that
proactively work to eradicate the
causes of generational poverty.

PROSPERITY

**The FBH Community provides pathways to prosperity
for people living in our own community.**

On November 3, 2021, Food Brings Hope was awarded Non-Profit of the year by the Daytona Regional Chamber of Commerce!

RECOGNIZING OUR VOLUNTEERS

COMMUNITY SUPPORT

Homes Bring Hope (HBH) has assisted nine families become homeowners. HBH team supports the clients from the moment they complete their first-time homebuyers course through closing and beyond. The housing market and rising interest rates have sidelined many families from the dream of homeownership. However, the HBH team works tirelessly to build affordable homes, on donated land from the City of Daytona Beach, with tens of thousands of dollars of in-kind donations. We welcomed the Washington Family into their brand-new home on June 24th, 2022.

Allaina Washington and her daughters cutting the ribbon to their new home with Forough Hosseini, Allaina's mother on their right and Police Chief Jakari Young, City Manager Deric Feacher and City Commissioner Quanita May on their left.

"You may have never met me and did not know who was moving into this home, but you laid a solid block foundation for me and my family."

Allaina Washington

Since April of 2021, *Homes Bring Hope* has supported nine first-time homebuyer families, to include 25 children. Homes were either built on donated land from the City of Daytona Beach, or purchased and renovated, or directly helped clients to purchase their homes, covering expenses such as home inspections, surveys or needed repairs. As we worked with our families, we realized homeownership is not just about qualifying numbers. We needed a program that wrapped around our families to support them wholistically and provided a connection between the agencies and community case managers that are providing tremendous community resources to our community. From here, *FBH Prosperity* was launched.

OUR MISSION

To lead the facilitation of homeownership opportunities for hard-working families.

OUR VISION

To empower the community through opportunities for homeownership for hard-working families.

HOMES BRING HOPE FAST FACTS

- 100%** homeowners received Financial Health Education
- 100%** homeowners received down payment assistance ranging from \$5,000 - \$65,000
- 100%** of HBH families have equity the moment they closed on their house
- 90%** are paying less in mortgage than they were paying in rent
- 60%** homeowners are Black, 30% Hispanic, 10% White
- 6** Lots were donated by the City of Daytona Beach, one lot by an individual
- 5** Lots are in process of donation from the City of Daytona Beach
- 6** Houses Under Contract

Total Down Payment Assistance HBH Clients have received: \$359,500

GROCERY ASSISTANCE POST-HOMEOWNERSHIP

In partnership with No Kid Hungry, every HBH homeowner receives a grocery trip focusing on healthy food items and paper & cleaning products as soon as they move into their new home – at no cost to them. We aim to maintain contact with our HBH families for continued guidance and support.

4 HOMES UNDER CONSTRUCTION

BUILDING A STRONGER COMMUNITY BY HELPING ASPIRING CLIENTS BECOME HOMEOWNERS

FBH PROSPERITY INITIATIVE

FBH Community developed FBH Prosperity with a goal to reduce poverty in the 32114 zip code by 10% by 2030. Recent government reports identified there are over 829,000 children living in poverty in Florida's 983 zip codes. Florida Chamber Foundation research shows half of them live in just 150, or 15%, of Florida's zip codes. One of those zip codes is 32114. Focusing on the root causes of poverty, identified by the Florida Chamber Foundation, FBH Prosperity seeks to end generational poverty by working to identify the hurdles blocking an individual's path to prosperity and working with business leaders within 32114 to provide solutions tailored to the families in our program.

Prosperity is about more than a society's economy or an individual's financial wealth; it represents an environment in which everybody can achieve economic self-sufficiency. FBH Prosperity's mission is to facilitate affordable homeownership within the 32114 zip code community through education and training, financial health, career development and health support. Working shoulder to shoulder with our future homeowners supporting a stronger skillset to remove barriers, helping hard-working individuals out of poverty. Through education, workforce development, employment, health and wellness, and financial literacy, FBH Prosperity relies heavily on our valued community agency relationships with a community first approach through wrap-around support and case management.

- ◆ FBH Prosperity requested five names of employees interested in homeownership from the following major employers; AdventHealth, Bethune-Cookman University, Daytona State College, Hope Florida Care Navigation Department of Children and Families, Embry-Riddle Aeronautical University, Florida Department of Health in Daytona Beach, Halifax Health, SMA Healthcare, Housing Authority of Daytona Beach, Veterans Affairs, and Volusia County Schools.
- ◆ FBH Prosperity staff work one-on-one with participants to identify and address individual obstacles. Some obstacles include building credit or credit repair, building savings, increasing income, reducing debt, and educational advancement to ensure a stable job in their career field of choice.
- ◆ FBH Prosperity helps participants overcome these obstacles with targeted referrals to various community service partners such as, Career Source, Daytona State College, Hope Florida Care Navigation Department of Children and Families, UF/IFAS Extension, SMA Healthcare, Central Florida Community Development Corp., and Mid-Florida Housing Partnership.

FBH Prosperity is currently serving 113 families to work towards homeownership readiness. Extensive follow up with both the future homeowner and the agencies ensures retention and motivation throughout the program. To qualify for the program the participant must be willing to purchase a home in the 32114 zip code with a vision of remaining in residence for at least 10-15 years.

HIGHLIGHT OF THE YEAR - BEAUTIFICATION PROJECT

Through the Prosperity program, over 100 volunteers from local agencies, banks, hospitals, and schools gathered together to get their hands dirty and give back to the 32114 community. This Project consisted of beautifying a total of 11 properties on Walnut St. and Aberdeen St. which received professional services such as power washing, lawn care, and intensive landscaping by the hands of volunteers under the direction of professional landscape architect, Michael Weremay with MJ Weremay Design. With a timeslot of three hours, the volunteers got busy and competed for the top awards. During the award ceremony, City Commissioners Paula Reed and Quanita May presented two checks totaling to the amount of \$120,000 of grant funding for Homes Bring Hope. The City of Daytona Beach has donated six lots for future home builds.

OUR VISION

Equip every resident with the necessary knowledge and skills, empowering them to overcome barriers, and build self-sufficiency to become homeowners.

OUR MISSION

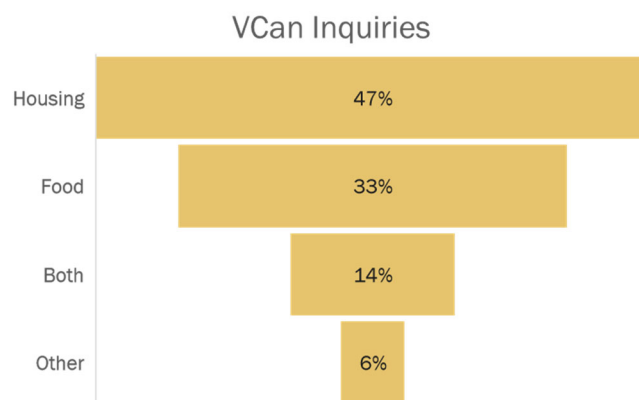

Foster economic growth for families by enhancing education, workforce development, employment, health, and homeownership.

VCan provides immediate relief services, with minimal barriers to access, for youth under the age of 25, as well as families with children under the age of 18.

Since 2019, VCan has been helping the at-risk and homeless children and youth throughout Volusia County by providing food deliveries, temporary shelter, and serving as a resource line. With a 24/7 helpline available to those in need, VCan has been able to make one-on-one connections with hundreds of families every year. Through vital community partnerships, volunteers, and supportive funding, VCan will continue to follow its mission of eradicating youth hunger and homelessness across the county and beyond!

363	Children Served (Under the age of 18)	176	Inquiries Received During Office Hours (8am-5pm)
37	Young Adults Served (18-25 years old)	43	Inquiries Received After-Hours (Before 8am and After 5pm)
181	Families (clients) Served	219	Total Inquiries Made to VCan (FY 21-22)
190	Food Bags Delivered		
93	VCan Deliveries		
230	Hotel Nights Provided		
66	Families that Received Hotel Assistance		
26	Hotel Nights Provided by PRM (In-Kind Partner)		
67	Hotel Nights Provided by Extended Stay America (Discounted Rate Partner)		

CFAB GRANT

With support from the Volusia-Flagler Counties Coalition for the Homeless (VFCCH), VCan acquired a \$17,160 Basic Needs Services grant from the Volusia County Children and Families Advisory Board (CFAB). These funds were used to provide emergency hotel assistance to homeless families within Volusia County. This allowed our program to serve more families in need and continue to fill the gap between homelessness and safe shelter. To date, we've been able to serve 29 households, which assisted 65 homeless children and youth, with this grant.

OUR MISSION

Eradicate hunger and homelessness among children and youth in Volusia County.

OUR VISION

Create a community where children and youth are empowered to reach their full potential.

Premier Resorts & Management

Long-time supporter Premier Resorts & Management (PRM) continues to provide in-kind hotel nights to eligible VCan families at three of its hotel locations in Volusia County between Daytona Beach and DeLand. When rooms are available and a call for help is made, PRM has stepped up and provided 26 nights of hotel stay to our clients at no cost to us. The FBH Team thanks the leadership team and hotel staff for providing safe and comfortable accommodations and exceptional hospitality to our VCan families. The feeling of hopelessness and uncertainty are immediately lifted off the shoulders of every parent and child that sleeps at a PRM hotel.

Extended Stay America

In October of 2021, VCan added Extended Stay America as a Discounted Rate Hotel Partner. By granting us a 10% discount and honoring our tax-exempt status for every reservation we make, we have been able to temporarily place homeless families in one of their fully-equipped kitchen locations between Daytona Beach and Ormond Beach.

Homewood Suites by Hilton

In May of 2022, Homewood Suites by Hilton in Daytona Beach became an In-Kind Hotel Partner. When rooms are available, their spacious in-suite kitchen rooms located in the epicenter of Daytona Beach will provide a safe haven for the eligible homeless families we serve.

Volusia County Schools Partnership – PETALS Program

This past year, Volusia County School's PETALS (People Experiencing Transition and Loss of Shelter) Program has made extraordinary moves to combine efforts with VCan and ensure children and youth who do not have permanent housing are able to go to school. With the strong relationship between homeless liaisons and the team at VCan, we've been able to assist 18 children and unaccompanied youth receive temporary hotel assistance, leading to total of 23 nights. This has led families to maintain their children in school, get connected to vital resources in the community, and receive emergency food, hygiene products, clothing, and gift cards as needed. As a proud member of the Homeless Steering Committee, VCan will continue to work with Volusia County Schools to ensure homeless children and unaccompanied youth are supported.

HOTEL PARTNER TESTIMONIALS

Bob Hietala, General Manager, Best Western Plus Daytona Inn Seabreeze Oceanfront:

"It is great that we can all give something back to our community and organizations such as VCan. The VCan team has always been professional and informative on how we can assist and follow up. We look forward to another year of supporting this program and its clients in their time of need."

Milagros Vasquez, Guest Services Manager, Best Western Plus Daytona Inn Seabreeze

"It feels wonderful knowing that we have an organization in our County that looks out for people who are in need of help. It's such an honor providing VCan with assistance on hotel stays for their clients"

- ◆ 1,207 Students Enrolled - an increase of nearly 500 students from last year & the effects of COVID
- ◆ 28,129 Individuals Served through the Pierson Pantry Program

EDUCATION IS THE KEY TO... Everything!

KidsZone and TeenZone

Food Brings Hope continued into its 14th year serving approximately 1500 students in our 32 afterschool programs, KidsZone and TeenZone. Nurturing the body, mind, and spirit of our underprivileged children so that they can reach their full potential is our purpose and the driving force behind all we do.

Growth in our numbers increased as children returned to school from virtual learning. Academic programs have always been a priority to the cornerstone of our mission. To support children, who lost a year's worth of academic growth, intense tutoring, mentoring, support, and related motivational activities were provided to lessen this barrier.

Field trips resumed and students once again experienced environments outside their neighborhoods. Coach Steve Ridder and his ERAU basketball team were able to host us again. Over 600 students had the chance to hear his inspirational words, visit the University and watch a game. One child said that it was the best day of his life!

The Daytona State College News Journal Center was the Venue for our FBH Got Talent end of year program. FBH students and sponsors entertained us with their varied talents including, singing, dancing which included a traditional Polynesian dance, synchronized swimming and even magic. As students were leaving for home, nonperforming students were talking about their own talent and what they would do next year. Providing this opportunity helped motivate students to reach inside and discover their own talent which ultimately might even be the path to reaching their full potential.

Food Brings Hope will continue to discover and overcome the obstacles facing our children and provide them every opportunity to experience success both in and out of school.

FBHonors Program

FBHonors began during the 2011-2012 school year in memory of Farshad Babazadeh, the nephew of FBH Founder, Forough Hosseini, who was killed in a tragic automobile accident. Over the past 10 years, his memory has been honored by this initiative that reaches the highest performing students in our programs and offers them increased opportunities to excel.

FBHonors started with 1 school and has increased to 10 in Volusia County and 1 in Flagler County. Rigorous, rich, and varied academic and non-academic programs are offered to empower creative and analytical thinking. Providing transitional learning is imperative to the success of the students of FBHonors; therefore, when adding additional schools to the program, we make certain they have the same feeder pattern. Elementary students in FBHonors transition through programs in middle and high school helping them to cultivate the deeper skills necessary to flourish in higher education and in building a career for the future.

Success stories abound of students who committed to FBHonors in 4th grade transitioned through FBHonors in middle and high school and are now students in colleges and universities such as ERAU, FAMU, FSU, UF and USF. One such student, Malana Jackson, graduated from Mainland High School with an AA degree from DSC in 2021 and is already a Senior at UF majoring in Microbiology and Cell Science with a GPA of 3.84.

CHANGE THE CODE

In recognizing the results of low Reading FSA test scores from schools in the 32114 community, Food Brings Hope launched **Change the Code**. The implementation of this program involves tutoring low performing students to do their best and expose them to events and activities located beyond their community.

- ♦ **\$45,856** of funding from Florida Department of Education
- ♦ **Goal:** Improve Reading FSA Test Scores among 3rd-5th graders
- ♦ **Implementation:** Tutor and motivate low performing students to do their best and expose them to events and activities located beyond their community.

This past school year focused on two elementary schools, Palm Terrace and Turie T. Small. As we move into the 2022-2023 school year, Food Brings Hope seeks to extend Change the Code onto Campbell Middle School and Mainland High School.

- ♦ **Turie T. Small Elementary:** 44% showed learning gains on FSA ELA in comparison to the entire student body at 26% (level 3 or above)
- ♦ **Palm Terrace Elementary:** 40% showed learning gains on FSA ELA in comparison to the entire student body at 36% proficiency (level 3 or above)

Student Quote:

"I didn't do well in my reading FSA last year and was asked to join the Change the Code Club this year to get tutoring after school. Food Brings Hope provides us the chance to do better in school. We have great teachers who make learning fun."

*Christian Davis, Palm Terrace Elementary School, Scored a 5 on ELA FSA
Stories of Hope News Journal 2021*

To celebrate the hard work and effort students in Change the Code made, both schools were awarded with a trip to SeaWorld! For many of these students, this opportunity, sponsored by our Board Treasurer Ted Serbousek, would have not been possible. A total of 44 students and their teachers traveled to this unforgettable theme park.

NOURISHMENT SUPERCHARGES FAMILIES

Weekend Feed-A-Family Program and Volusia County Schools Food Program Partnerships

Food insecurity continues to be one of the most pressing problems in our society and research shows suffering from it prevents a child from learning.

In partnership with Halifax Urban Ministries
and Volusia County Schools,

Food Brings Hope works to eliminate the stress of food insecurity.

In our *KidsZone* and *TeenZone* programs, Volusia County Schools supply power snack bags and dinners to the students in FBH. This assistance provides students energy and increased focus prior to their KZ or TZ meeting and a hot meal before going home at the end of the day.

Food Brings Hope and Halifax Urban Ministries have been partnering since 2011 to provide weekly food bags to our FBH students and their families. HUM delivers approximately 375 food bags, containing 30-35 lbs. of food, to designated families in our FBH schools each week. These families are identified by teachers, counselors, and administrators. FBH supplies a freezer to each school to store perishable food items before distribution.

In 2021-2022 through the weekend food bags, holiday food bag deliveries and a back-to-school food drive, *Food Brings Hope* was able to provide approximately

11,000 Food Bags

to students and
families of FBH.

PIERSON FAMILY LITERACY PROGRAM

Limitations are created when an individual is unable to read or understand job applications, utility bills or medications and can even elicit a feeling of being boxed in and unable to succeed. Food Brings Hope has partnered with Daytona State College since 2016 to give adult learners, in the rural community of Pierson, the opportunity to further their education and improve their language skills creating opportunities that may have once seemed like an impossible dream.

A Literacy program coordinator, certified instructors, adult students, and children meet two nights a week. ESOL, English for Speakers of Other Languages, is offered and classes range from beginner to advanced level and focus on conversation, grammar, life skills, job training and employment. The children who join their parents are involved in our KidsZone program while their parents attend class from 4:30 P.M-7:00 P.M.

73%

made significant gains in one or more tested skills (Reading, Listening, and Speaking)

55%

progressed to the next level

3

students will enter the GED program in Fall 2022

100%

- felt more confident in their ability to communicate orally at work
- would like FBH to continue offering classes
- reported their vocabulary has improved

PIERSON ADULT LITERACY PROGRAM

Highlight of the Year

After attending an Open House and tour on the Daytona Beach campus, FBH/DSC Adult Literacy Program students learned *"It's never too late to set a new goal or dream a new dream"*.

The Open House on the Daytona Beach campus focused on the certificate programs DSC offers.

Guest speakers shared financial assistance available through the college, CareerSource, and local hospitals such as Halifax Health for individuals interested in Certification and Health Care Programs. Students and their families enjoyed a tour of the Southeast Museum of Photography; a full-service Learning Resource Center that houses the library, DSC Writing Center; the Lemerand Center and DSC state -of-the art Cosmetology and Barbering Programs.

Going to Daytona State College, Daytona campus was such a great and memorable experience for the Pierson Adult Literacy Program.

PIERSON PANTRY

There was an increased need noticed at our food pantry this year amongst seniors, working individuals, families and the homeless. Due to our continued partnerships with Second Harvest and No Kid Hungry, and our new collaboration with Farmshare, we were able to distribute **164,453** pounds of food to the people of Pierson. Farmshare makes it possible for us to distribute proteins and healthy, nutritious fresh fruits and vegetables to our clients.

Our pantry program is able to distribute food that is already cooked plus food that does not require access to a kitchen to make. In 2021, we continued to make available disinfectant and cleaning products, as well as diapers, masks and other nonfood items to help our families continue to deal with COVID. The number of bike rider clients grew so backpacks were filled with food and other necessities and made available to them.

The Pierson Pantry continues to make a measurable impact on the rural community of Pierson and served **28,129** individuals during 2021-2022.

PIERSON KIDSZONE PROGRAM

TOTAL: 15 students enrolled K-5

The Pierson's KZ Program provides opportunities for academic enrichment to help students meet state standards in literacy, math, and science. Students also receive extra help on homework, class projects and assignments. Regardless of where students began at the beginning of the year, the goal is for all students to experience greater growth.

Partnership with the Pierson Public Library:

A partnership with The Pierson Library allows KZ students to discover the amazing world of science, technology, engineering/circuits, and math after the regular school day.

The Library Mobile Technology Lab arrives at the San Jose Mission every Thursday. The lab includes iPads, internet connectivity, OSMO STEM Kits, Makey, Makey, Circuit Scribe & Stop Motion Video. Students and their families were involved in an extraordinary number of activities which included:

- ◆ Annual Hope for the Holidays
- ◆ ERAU Basketball Game
- ◆ Deland High School Spanish Honor Society Tutoring Program
- ◆ DSC Tour
- ◆ FBH Got Talent Night

WITH OUR HEARTFELT THANKS

Numerous individuals, groups and businesses have helped us accomplish the Food Brings Hope's Mission.
We are grateful for their unwavering support.
